SUMMARY

Aspiring Software Engineer with a passion for building responsive, full-stack web applications using modern technologies. Strong foundation in computer science principles, hands-on experience with real-world projects, and a focus on writing clean, scalable code. Eager to contribute to dynamic engineering teams and grow as a developer in a professional software environment.

SKILLS

Languages: JavaScript, SQL, PHP, Java, Python, HTML, CSS

Frameworks: ReactJS, Express.js, Node.js, TailwindCSS

Database: MongoDB, PostgreSQL, MySQL

Concepts & Tools: RESTful APIs, OOP, SDLC, RDBMS, Software Testing, Git, GitHub, JIRA, Azure, Prompt Engineer, generative AI, ChatGPT

EXPERIENCE

Aakrutii Technology - Pune, India

Developer Intern [Dec 2024 – May 2025]

- Developed responsive web applications using ReactJS, Node.js, and PostgreSQL, enhancing the digital presence of small-scale businesses.
- Delivered tailored solutions by collaborating directly with clients and applying RESTful APIs and OOP principles to meet specific business needs.
- Improved development efficiency and code quality through Git version control and agile task management using JIRA.

Ubisoft - Pune, India

Intern Game [Feb 2024 – August 2024]

- Enhanced testing accuracy by documenting and executing 50+ detailed test cases, leading to faster bug identification and resolution.
- Logged structured bug reports via JIRA.
- Ensured QA reliability with precise documentation.

EDUCATION

MIT Art's Commerce and Science College - Pune, India

BCA - Computer [2021 – 2024] - CGPA: 7.70

Nowrosjee Wadia College - Pune, India

HSC – Science (PCM) [2019 – 2021] - Percentage: 81.17%

PROJECTS

QRAR - Restaurant Ordering SaaS Platform [Dec 2024 – Present]

- Developed a SaaS platform enabling QR code-based digital menus and dine-in ordering enhancing operational efficiency.
- Built using the MERN stack (MongoDB, Express.js, React.js, Node.js) with real-time order notifications and secure authentication.
- Onboarded 6+ restaurant clients, with a growth rate 20% per month and ongoing feature enhancements.

TalkMore - Real-Time Chat Application [Oct 2024 – Dec 2024]

- Built a real-time messaging app using MERN stack and Socket.io for instant communication
- Implemented JWT-based authentication, ensuring secure user logins and encrypted message storage.
- Achieved 99.9% uptime with optimized WebSocket connections, improving user retention.
